

FORGED FOR GREATER PERFORMANCE

DAMAGE: ELPH R2900 ROD BROKEN NECK
Replaced with our **Tough Forged Rods**

ONE PIECE.

NO JOINS, NO WELDS.

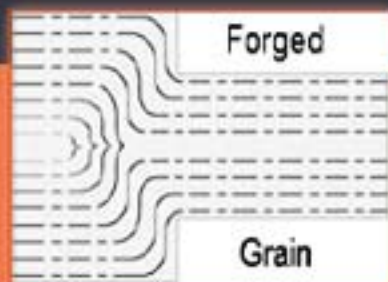

Longer Life, Greater Strength & Flexibility
Reduce your Downtime and Expenses
Increased Rod Diameter and Chrome Depth
Greater Impact and Corrosion Resistance
Field Tested for 2 Years with No Breakages

BENEFITS OF FORGED RODS:

Directional alignment through the forging process has been deliberately oriented in a direction requiring maximum strength. This also promotes ductility and resistance to impact and fatigue.
